

Software Engineering Concepts, CSC291

Assignment 2: addressing CLO4 at cognitive level C5

CLO4	Design software using various models and architectural designs.
-------------	---

For the project titles selected by each individual for Assignment 1, please submit the following designs:

1. Classes and Associations Diagram as in slide 24 of slides Chapter5.
2. Detailed description of 5 classes at least with attributes and methods.
3. Select a suitable architecture pattern from the patterns studied in Chapter 6, and Design the architecture of the project.

Note: the Designs will be hand written, clearly labelled, and following the same patterns as discussed in the lectures.

Due Date: 20th June, 2025 in class
